CoreTrustSeal Newsletter 09-2022

CoreTrustSeal Requirements 2023-2025 available

CoreTrustSeal has launched their revised Requirements for the period 2023-2025. They will come into play per January 1, 2023.

The new requirements have been posted on our website: CoreTrustSeal Requirements.

You will also find a video there that explains the process and implemented changes.

The remainder of this year will be used to disseminate the new Requirements and a change log. Furthermore we will train our reviewer community on the changes that have been implemented. Dates will be made available in a next newsletter.

 [Changes to the CoreTrustSeal Requirements 2023-2025](#)

AMT will be closed for new applications Nov.1, 2022 till Jan.15, 2023

In order to implement the new CoreTrustSeal requirement 2023-2025, the Application Management Tool (AMT) will be closed down for new applications between 1 November 2022 – 15 January 2023.

The applications that are already in progress under the 2020-2022 requirements and that have been submitted before November 1st will not be affected by the closure.
